

THE STUDENT PRINTS

Senior Issue

To the Class of 2023...

For the final time, hello Wildcats!

Welcome to the last issue of the Struthers Student Prints for the 2022-2023 school year. It was a pleasure and an honor to be your Editor-in-Chief this year.

This school year alone, we made many memories to look back on. From standing out in academics and other extracurriculars to much more. Along with memories, we have made a lot of progress. This senior class has been through a lot, but we always came back stronger and defied the odds. From every hardship that you have encountered this year, use it as a reminder of how far you have come in life. Use them as encouragement to keep going, wherever you may be in life now and where you may be in the future.

To all who have found their passions and are ready to do whatever it takes, do not let anything get between you and your dream. To those who are unsure of their next steps in life, do not give up. Keep searching, because somewhere down the line, you will find it.

Congratulations to you all and may your dreams, plans, and lives be ever so successful!

To my **friends** old and new, thank you for sticking by me all of these years. To **Nathan Baird, Glenn Musser, Alyson Mitchum, Jayme Minter, and Arlene Groves**, without your support and encouragement, I most likely wouldn't have made it through my last year. I can't wait to make more memories with you guys. To **Angel Rhymer**, thank you so much for being by my side since 6th grade. From then until now, we have been through a lot. Nonetheless, we stuck together; I would and could not have gone through the things we have been through with anyone else.

To all of my **underclassmen friends**, keep working hard! It may feel like there's many years ahead of you, but you are almost done! **Jonice Coats**, never stop shining. There is never a dull moment with you. You keep me young!

Someone once told me that your high school years fly by fast. Now having the full experience, I can tell you that it does! Do not let your years pass you by. Always work to your best potential. Nevertheless, don't forget to make as many memories as you can. This is an experience that you can go through only once. Do not waste it!

To the **band members** that have left and those who are still here, thank you all for giving me memories that I will never forget. It was an honor being a member for four years and your Drum Major for two of them. Many people don't realize it, but band not only helps you grow as a player, it lets you grow as a person as well. To every instructor that has taught the band, thank you for your contribution to a group that I can call family. **Mr. Hawkins** and **Mrs. Russo**, you both have seen me grow from the highs and lows of life. It was your encouragement and support that kept me going in both band and life. To all of the members who I am leaving this year, do not be afraid and give it your all. Band is the place to learn teamwork and to improve, whether it is in playing or, again, self-development. Become the leader you would want somebody else to be for you. Make progress that you would be proud of a few years from now. Play your hearts out! Most importantly, anything you do, do it with your chins up and eyes with pride! As Hawk says, go practice!

To the **staff**, I want to thank every single one of you for being there, especially when I needed help. **Mrs. Dubos** and **Mrs. Weitzman**, you both have helped me so much, and I am forever grateful for your support and kindness. To all of the teachers I have had the pleasure to be taught by, thank you for teaching me lessons that will allow me to succeed not only in an academic sense but for any of life's obstacles. **Mr. Dailey**, your passion for teaching is truly inspiring. Your drive and enthusiasm to genuinely help students in class inspires me to do better academically. As you always say, turn down for what! Lastly, to **Mrs. Mickler**, words cannot explain how great of a teacher you are. What you have done for others and myself, I am forever grateful for the rest of my life. I am very lucky to have been able to take your classes. You truly are an inspiration for me. You have taught me so much, not only in preparing for college to major in Journalism, but also for life as well. You are overall just a good person.

As I along with the seniors are parting ways, I want to say again that life does not stop here. Though this chapter of life is ending, a new chapter is waiting and has yet to be written along with many more. Wherever you go, whatever you do, make sure your full heart is in it. Take chances and take risks! You'll never know what the outcome will be if you don't try.

Once again, congratulations to the Class of 2023! We deserve it.

Yours truly,

Bryona Colyar

I got to play with my favorite seniors one last time, and I wouldn't trade it for the world. For cheer, my most memorable moment is my last game of football season we all sat on the bus together crying wishing we could get the time back, hugging each other and talking about how we only had one season left with each other. ADVICE TO MY YOUNGER SELF

Grace Fabry: As Taylor Swift once said, "Words can break someone into a million pieces, but they can also put them back together." Be nice; life is short.

Olivia Tondy: I would tell myself to not slack off in high school and to really crack down. The time goes by so fast, and you will regret it when you haven't done all the things you wanted because you didn't push yourself to do them.

Katarina Fay: Realize who has your back and wants to see you grow instead of letting you fall.

Sophia Kavouras: Do not try to change yourself for others; be yourself and do not care what others think about you.

Abby Donnadio: High school goes by fast; be involved and make the best of it. Also, do your work to keep your grades up.

Katarina Fay: Don't do the mythology final; you'll regret it.

Austin McCullough: My advice would be to get involved and to take chances.

Le'Ayshia Corinaldi: Stay to yourself and move at your own pace.

Faith Stellato: I would tell my younger self is to do whatever you want to do and don't let anything get in the way. Also, be careful who you chose to be around and what you tell people, because most of them end up leaving and turning against you.

Myla Vince: Enjoy it while you can; time goes fast.

Bella Slaina: Don't care about what others say; just be yourself.

Jayne Minter: It's okay to be sad. It's okay to need to talk to someone about your feelings. It's okay to not be okay.

Mackenzie MacDonald: Keep going no matter what life throws at you and always try never give up.

Briana Best: Don't try so hard to fit in or be friends with people because you don't end up being friends with them in the end anyways.

ADVICE TO MY YOUNGER SELF

Carlee Rhodes: Some advice I'd tell my younger self is to keep being you and not caring about what others think.

Adrianna Rudzik: Have fun and make as many memories as you can because it goes by so fast.

Deanna Gulu: Keep on pushing on, matter how hard the times may get. Don't ever stop going on no matter how many people try to drag you down. Even when your grandparents pass, you have to keep on going for you and them because you know that you are making them proud. They would be so proud of you if they were still here by the time you graduate.

Arica Robertson: I would tell my younger self that people not always good, some people are bad, and that they're not people far from us but right on our doorstep, to never put someone on a pedestal just because they're family. Everyone is human and putting them up high will leave you out to dry.

Dylan Galeoti: Stay focused and have fun!

Vanessa Cicozi: Don't let others walk all over you and live in the moment not the past or future.

Emmah McConahy: Don't be afraid to go out of your comfort zone.

Ella Stiver: Keep going. Though you may never see the light at the end, eventually it won't be so dark anymore; make your own light.

Alec Dankovich: I would tell myself to be more confident in yourself.

Brooke Adams: To not care about the amount of friends you have because you will realize later on that it doesn't matter as much as you think.

Chance Laczko: Stay young for as long as possible—Life goes by SO fast.

Zoey Simpson: I would tell my younger self to stick up for yourself and not listen to what everyone has to say about you.

Alec Grzyb: Keep working and you will be happy with what you have earned.

ADVICE TO MY YOUNGER SELF

Bryona Colyar: Do not let other people's decisions and opinions distract you from what you have going for yourself and the potential you have. If you have no one to look up to, become that person for someone else. You are in control of your own destiny. Do not let others tell you who you are and do not let them try to change you. If you believe in yourself, you can do it.

Ayden Isabella: Don't get distracted from your goal.

Dream Jones: That thing you're worried about will not matter tomorrow, I promise. Just sit back and vibe and have a good time.

Giovanni Almos: Don't give up; life's going to push and throw you around, but have faith and stay strong. Greater days are ahead.

Delanie Livolsi: Don't worry about what everyone thinks. Not everything is as big a deal as you think, and you are so much more than everyone wants you to believe. Don't let that light of yours die out. You were put here to help others and spread peace, love, and light.

Brady Clyde: To never stop working hard and anything is possible

Tyler Blasko: You did good, kid.

Dom Farrar: In life, things may get harder, but somehow in some way it tends to always get better.

Gabrielle Gutierrez: Stay long; life's short, and you will miss it.

Alicia Grossman: The advice I would tell my younger self would be to be careful on who you decide to be friends with and make sure you do the most you can in high school.

Caleb Isenberg: Do not procrastinate on your school work.

Connor Pavlicko: Do not wait until the last minute to do everything and make sure to always try your hardest because you get what you give. Don't stress over things you cannot control, and failure is a part of life.

Adam Grewe: Watch the ones you call friends and live life to the fullest.

TEACHER IMPACTS

Grace Fabry: Mrs. Nicholas has made a huge impact on my life. She has helped me realize my potential, and helped me fall in love with the Spanish language.

Olivia Tondy: Mrs. Mickler has definitely had an impact on me throughout high school. She has always been so kind to me and everyone else and makes me feel comfortable when my freshman year I was very nervous. Another teacher would be **Mrs. Ryan** from the elementary school. She always used to watch out for me because I was always one of the smallest kids in my grade and always made me feel like I was where I needed to be and pushed me to do my best.

Sophia Kavouras: Mrs. Mickler has made a great impact on me, and I do not think I would have made it through my last four years without her.

Abby Donnadio: Mrs. Jones, Mr. Kornbau, Mrs. Pera

Liliana Rawls: Mr. Kornbau and **Mrs. Zappia** affected my life tremendously; they helped me a lot when I was going through personal issues. Mr. Kornbau always supported me with college and school choices which I appreciate. Without him, I wouldn't have took AP English and push forward with it. Mrs. Zappia listened to my issues a lot and gave good advice that helped me for the better. She's kind and works hard for the students, and I think it's kind of her to do so. To both of them, thank you.

Austin McCullough: I have had many great teachers through my childhood my pre-school teacher was very impactful to my growth. Her name was **Miss Tina**; she has been very important in my youger days. I have had great high school teachers such as **Mr. Matzye** and **Mr. Garcar** who also coached me. They have had lasting impacts on me.

Le'Ayshia Corinaldi: K Dilly, Mrs. Mick, Mr. Bruno, Mrs. Bradley, Mrs. Dubos, Mr. Day, Mrs. Knight

Faith Stellato: Mrs. Mickler has made such an impact on me because not only is she an amazing teacher, she is also a friend to everyone who cares about each of her students. She is always there for anyone and has the best personalty. **Mr. Cammack** as well because whenever I talked about leaving for college and always talked about how it would be a great experience and that I should go. A lot of people tried to shut me down and say I shouldn't go, but he always encouraged me.

Myla Vince: Mrs. Mickler and **Mr. Garcar:** They're just overall great teachers, and I'm definitely going to miss them the most.

Bella Slaina: Mrs. Mickler has made a positive impact in my life. I can always confide in her whenever I need, so I nominated her for Ohio Teacher of the Year.

Jayne Minter: All four years, **Mr. Dailey** kept me motivated. He made me feel like I was important, and I was worth something to someone. He is the most amazing teacher I've ever had. Every student needs a teacher like him in their life.

Mackenzie MacDonald: There have been so many teachers who have made an impact on me, but **Mrs Mickler** has been like no other. She is there to help guide you through anything you need help with and give you any support that you need.

TEACHER IMPACTS

Briana Best: **Mr. Gaia** and **Mr. Zanni** were always there for me when I needed to talk and made me laugh when I just needed it.

Gabrielle Gutierrez: **Mr. Dailey** and **Mr. Bruno**

Alicia Grossman: The two teachers that made a positive impact on me are **Mr. Bruno** because he makes class fun, and he is very understanding. The other teacher is **Mrs. Lambert** because she was my teacher in 7th grade, and she is very understanding.

Carlee Rhodes: **Mrs. Mickler** and **Mr. Matzye** are both incredible teachers and kind to everyone. They've made an impact on me because I made sure I had them just about every year in high school because they're amazing and make me want to be amazing like them.

Adrianna Rudzik: **Mrs. Weitzman** has just helped me through the last four years with everything with no matter what I needed. I couldn't be happier to have her.

Deanna Gulu: **Mrs. Russo** was a teacher that would always try to see both sides of what is going on. She is a teacher that I could trust with so much information. I'm always able to talk to her about many personal things without feeling like I had to hold back on what I could and couldn't say.

Mrs. Monus was my 7th grade volleyball coach and a teacher who I could always count on for advice. She never gave up on me.

Mrs. Lambert was always pushing me past my limits because she saw more potential in me than I presented myself to have.

Mr. Bruno left a huge impact on my life during junior year. He helped me a lot to realize that I'm more than how I seem to be, especially during Psychology. He helped me figure out what I wanted to do with my life, and he was also someone I could also look for advice on many topics without feeling like I'm going to be judged.

Mr. Dailey always had such a positive attitude even though I personally never had him as a teacher. Every interaction I've had with him was always just a positive one.

Arica Robertson: There have been a few teachers that have had an impact on me: **Mr. Bruno**, **Mr. Dailey**, **Mrs. Lambert**, **Mr. Kornbau**, **Mrs. Rogan**, and **Mrs. Chuck**. They all just had a positive impact on my life.

Dylan Galeoti: **Mr. Kornbau** and **Mr. Garcar:** These two always made school fun even when I didn't want to come.

Vanessa Cicozi: **Mrs. Rohrer** because she is known to be outgoing and always has a smile on her face.

Emmah McConahy: **Mrs. Mickler** because she is such a helpful and nice person in school and out. I love talking to her when I can because she is just so down to earth and very understanding.

They always encouraged me to be better, not only as a member of the band, but as an individual.

Brady Clyde: Mrs. Mickler because she's the best.

Tyler Blasko: Mr. Shuluga and Mr. Donatelli because they made my high school experience so much better.

Dom Farrar: I assume most students that know this teacher will put this name up here, but Mr. Dailey hands down was the best teachers out of all of them. He helped me so much throughout my high school life. He's always kept a positive mindset in front of me and always told me to keep moving forward and to not let the bad things take you down. Thank you, Mr. Dailey.

I didn't know you for too long, but you have never failed to make me smile or laugh at any given moment. You really made my first season special and made me happy every time I was around you. I hope you never stop being you, and I hope that I still see you outside of school after you graduate.

Grace Fabry

I'm really going to miss you. Being around you and Glenn every day in 5th period study hall literally made my day every day. You honestly helped me stop being as anxious to meet new people because you have been nice to me ever since I met you. I'm never going to forget the memories I made with you this year, and I hope to be like you moving through my high school career. I hope you never stop being you, and I hope you have fun in college.

Owen Eisenbraun

I still can't get over the fact that we look so alike. ever since I met you in 5th period study hall, you and Grace have become my role models. I don't get to talk to you as much as other seniors because we don't share any classes, but you stay one of my favorites because you're awesome. You better still talk to me after you graduate, I'm going to miss you.

I always have fun poking fun at you each and every day; just like How I always have fun whenever you poke fun at me. It will be so boring in most of my classes whenever all the seniors leave since I have like four classes which seniors are involved in. I will also be happy since I won't have to worry about my water getting stolen.

I wish you would have done more work in your works instead of leaving it all to me, but I did have fun talking with you about games and stuff. Too bad we did not get more chances to play video games before you had to go and graduate.

Aiden, I am so proud of you. With everything that's went on, you've done nothing but think positive and do anything you put your mind to. You are so smart in every way, and I hope nothing but the best for your future. Your future is so bright. Thank you for being there every step of the way. It's going to be different without you in high school with me since we've been together since my freshman year. Your soul is so pure, and I am so proud of the person you are becoming. Thank you for all of the laughs, cries, and memories that I will cherish forever. I see big things coming your way. I love you so so much and congratulations!

When we first started to cheer together, you were one of the only ones that would talk to me. You were always so kind to me every day at cheer practice in the summer. When it came to football season, we would stand right by each other and laugh and talk all the time. It was always so much fun, and we have the best time together. Then school started, and we were in the same Digital Media class and talked all the time. I would always do your hair for the games whenever you would ask. I still do your hair all the time for softball. We've gotten so close in the past year, and I'm going to be so sad when you leave. We have gotten so close, and it's really sad that you're leaving. I hope college goes well, and I'm going to miss you. I love you soo much!

Saying goodbye to you will be one of the hardest things I'll ever have to do. It's hard to put into words how much I'll miss you. We've been through so much together, and our friendship is something truly special. You've always been there for me, no matter what, and I'll never be able to thank you enough. You've been my support system and my friend, and I hope that I've been able to return the favor. Not everybody gets to have a friend that withstands the test of loyalty and has proved to be the best shoulder to cry on, the best ear to listen to and the best person to have the most amount of fun with. I can proudly say that I had that and while it lasted, it was the best feeling ever, having you as my best friend. I always think about the times when it was just you and me against the world, overcoming every obstacle together. We have been through it all together, from the lowest lows to the highest of highs. But I could never imagine not having you with me. You were like a sister to me, and I knew you felt the same about me. Our friendship started off real small but definitely ended real big. Words cannot express how thankful I am for our friendship. I am going to miss you so much, but it is time for you to grow up! I wish you the absolute best of luck going forward. Behind that big head of yours there actually is a brain, and I know you'll use it. But I want you to know that you matter so much to everybody. Don't ever think you're not good enough because you are more than good enough, Myla. You've made so many lives better by just existing because you just have that impact. You've been the greatest, most loving, caring, compassionate, and selfless friend to all of us underclassmen. I'm going to miss your presence so so much, and I will keep saying that over and over again because friends like you come once in a lifetime. We've grown so much together, and we've shared so many memories that are forever going to be in my heart. I can't even pick my favorite moment with you because there are too many for me to even begin with. Just know I will always remember your laughter, your jokes, your voice and your stupidity. I love you with all of my heart, forever and ever MYLA.

Brady Clyde

Saying goodbye to one of the closest people in my life is not easy to do—specially you, Brady. We started off as just knowing each other because you were best friends with Chaz, but as time went on you became my own best friend. You were my everyday counselor, giving me advice and teaching me the right and wrong ways. At times, you were more a brother to me than my actual brother was, lol. I seriously don't know what I would've done these past years without you. Every single time I was upset, you were there to comfort me. All the messed up things I've done over the years, and you were still by my side through every second of it. Through thick and thin, when I had nobody there for me, I knew I could always rely on you. You are hands down one of the most loyal friends I've ever had and ever will have. You are so dumb; it makes me so mad sometimes, but behind that stupid head of yours there actually is a brain that is kind and smart and selfless. You will never understand the impact you have made on my life. I will forever cherish every single piece of advice you have given me to become the person I am today. Not many people have the bond that we have together. That just goes to show how important you are to me, Brady. I really will always remember your stupid, clumsy, god-awful DUMB self. You are the type of person I will remember when I'm 80 years old in the hospital. Thank you for everything, Brady. I love you forever.

Saying goodbye to you is so hard. You are hands down one of the funniest people I've ever met. Every single time we all hung out, you made it 20 times better. You just had that impact on everybody. I will always cherish every memory we had together because they were all such great times. I'm going to miss going on PA drives and sneaking out of the house just to drive around wasting gas. I'll miss our conversations and the laughter we shared. There are some memories with you that I couldn't forget even if I wanted to, especially the Luh Tyler ones. As you move on in life, I know you'll do not such great things! But good luck in whatever you decide to do. And thank you so much for making my last months with you so much fun, I wouldn't trade the moments we all had for the world. LOVE YOU NICKY D...cuh

Thank you for everything over these past years. You've become one of my closest friends since my freshman year. We've had our ups and downs, but we always end up finding a way to tolerate each other, lol. I do appreciate the bond we have, whenever I need somebody you're always there for me. I will forever miss your get togethers with all our friends. Your house holds a lot of good times, and it's going to be hard not having those good times with all of you seniors anymore. I saved this one for last because this will be my hardest goodbye. Having to say goodbye to somebody that I haven't gone a day without for 18 years is tough. You've been my mentor, my guide, my rock and somebody I've always looked up to. We've shared a bond that most people don't have with their siblings. Our bond was special and 100% unlike any other. You're the right to my wrong and the good to my bad. You were the angel kid in the family, while I was the devil. Though our extremely different personalities didn't take one thing away that we had in common. We're both so weird. I can't even list off all of our weird conversations or things we'd do that I guarantee no other person on this earth has done. I loved it, though. You brought out this silly personality in me and it made me who I am today. I thank God for giving me an irreplaceable, annoying big brother because I'd be lost without you. And I don't know what I'm going to do without you in the house. It's definitely going to be quiet and boring. I won't have my brother to scream random things with me anymore and that kills me. I'm going to miss all your stupid little sayings that would make me fall over laughing even when at times they weren't even funny. I'm going to miss picking on mom together or the cats. Most importantly I'm going to miss your presence Chaz, I really do not know what I'll do without you. This is going to be extremely hard on me. Especially because you were the only person I liked at times. Sometimes I wished we weren't as close as we are because this goodbye wouldn't be this hard, but it is. Just know I appreciate the brother you have been to me throughout the years. I wouldn't trade you for the world. Thank you for being my greatest friend and somebody I could always count on. Thank you for always sticking up for me and doing all the things a brother does. You've played the big brother role perfectly. I love you forever and ever and I'll miss you so much. I LOVE YOU BROBIE!

Dear Grace Fabry,

I just want to thank you for showing your kindness to me. We might not know each other much personally. But your kindness really shows me that you care about the people around you. I just want you to know how much I'm proud of you. You've worked hard to get to who you are today. I want you to treasure those moments and continue to grow into the person you want to be. Overall, your kindness will be remembered, and I am going to miss that. Anyways, I hope you have a bright future and a bright path waiting for you in your next step.

You are an outstanding woman, and you have done so many great things for the seven years that you have attended Struthers, obviously. But I have known you my entire life, and you were always the one I could somewhat relate to because we are the closest in age of our siblings, but now you are about to leave me and go start your life. You will finally be able to live and be yourself without anything or anyone getting in your way of that. I'm going to call you every day, and if you don't answer, I'm going to blow your phone up with text messages, and you'll eventually have to answer them. I will always be here for you if you need anything, but I want you to go out there and live for once without someone yelling at you for how you have behaved. I want you to be you and live the life you've always wanted. Big, you made it! You made it through 13 years of schooling; you made it through 18 years of living. You made it. Even though I'm upset that you are leaving me, I'm happy that you are happy to start truly living. I look up to you in many ways even if you don't believe me, after all you are my only big sister. I want you to make some very memorable memories up there and tell me all about them. You're going to cry once you finally sit in your dorm, and the fam and me leave from dropping and moving you in. You're going to really realise that you made it through everything, even if you didn't think you were. Do good, big sis, and be amazing!

This letter is going to you because you have made such a big impact on my freshman year. There are a few reasons why this letter is going to you. You have taught me a lot. You have taught me what words mean and different kinds of meanings of words (I think you know but if you don't, text me). Another thing you have taught me was how to protect myself. There is one thing that I appreciate. I appreciate how much you made me laugh and always being there for me. One piece of advice that I remember is to love myself/feel comfortable in my skin. One funny thing that you always corrected me for was, anyways, "I'm the most populous guy in the group." Most of the time I say that after my friends or myself. Thank you for coming to my birthday party. But you are finally done, and it's time to say goodbye. Thank you for being my true friend. I hope to hang out with you guys again.

This letter goes to you for making an impact on my freshman year. There are many things that I appreciate you for. One thing I appreciate is helping me with anything and being there for me. Another thing is for being like a second mom to me. I remember this one time where you helped me with my article for Journalism. You gave me some good advice throughout this year. I will always remember my promise to you: to let in a freshman and let them be friends with me. But you are finally done, and it's time to say goodbye. Thank you for all the help and for being my dance partner. I hope to hang out with you guys again.

This letter goes to you because you have made an impact on my freshman year. One thing that I will appreciate is you are always being real with me. It lets me get a sneak peek of what life is to bring. You never fail to put a smile on my face. One memory that I will remember is when we are singing and dancing you would stare at me. Another one is you at the dance. (If you need details, I'll text you). Thank you for always being a friend to watch movies with and to party with/talk to. Thank you for helping me throughout this year. You are a great person. I want you to remember how much you mean to people. No matter any situation I feel that you are always a light to no hope. I hope to hang out with you guys again.

You are probably surprised that you got a letter from me. Throughout this year, you have made an impact on me. You are always yourself, kind hearted and understandable, so when you go to college remember that. If I were to name my favorite memory with you this year, it would be hard to do, but I'll choose. My favorite memory is when you, Ryan, Louis, and me were talking about Maddie, and you asked if I was comfortable with what you guys were talking about. That made my week. The one reaction that will stick in my mind is when you made your solo. You were so happy. I was happy for you. Thank you for being a great role model for me. I just want you to know that you make a great impact on people. But you are finally done, and it's time to say goodbye. I am very proud of everything you have accomplished/overcome this year.

This letter goes to you for making a big impact on my freshman year. I'm going to be honest with you. At first, I didn't really care too much to get to know you, but as the year went on I had a lot of fun with you. When I give you dirty looks, you give them back. I really do appreciate you, a lot. Although we only talk at lunch, I learned a lot about you, and you learned a lot about me. Maybe I should say brunch since it's in the morning—makes me mad sometimes. Of course, if it's popcorn chicken, I'll be happy. I need to stop rambling on. My favorite memory of us is when we hung out after our performance. I should probably say thank you, but there's more to be said. Some advice that you gave me was that I can do anything if I put my mind to it. I learned this by what you do and your actions. One thing that I like about you is that you're a party animal. It is really fun to hang out with you. If anyone says otherwise, then they are not wrong. I hate that I sound like a mom right now. Speaking of mom, you're like a mom to me—more like a sister mom. You never fail to make me laugh, but you do have a lot of embarrassing photos of me. (Please don't post them on my birthday). Thank you for the gum, perfume, lipstick, a good friend, and a party partner. Thank you for being you. Honestly, I loved hanging out with you. It's surely going to make me sad when we don't talk or see each other every day. But you are finally done, and it's time to say goodbye. PS. Don't let any man make you feel self-conscious or give you less than what you should get. Dang, that's a lot, not done yet though. One other thing that I loved about you is that you helped me without realizing it. Please don't forget me. I would appreciate that. Speaking of appreciation, I appreciate your cool personality—how much you make people's day by just a simple smile. I hope to hang out with you guys again.

I genuinely don't know what to say for you. I can give you credit for being the first one in the group to start a friendship with me and because of that I've met wonderful people. It's never too late for me to acknowledge how you started it all, and I thank you for that. Love you!
